Message from DYS Director Harvey Reed

American Education Week

November 18, 2016

Happy American Education Week! This special week, which began November 14 and wraps up today, is spearheaded by the [National Education Association](#) to celebrate public education and honor individuals who are making a difference in ensuring that every child receives a quality education.

I could not be more proud of our Buckeye United School District staff. They work hard to reach youth, who often have had past academic challenges, and give them the support they need to realize success while at DYS and beyond. The following [video](#) highlights our teachers' thoughts on their important work. Please take the time to watch it, and consider sharing on social media in support of all of our educators' excellence.
