

# Findings from Holmes County's Behavioral Health/Juvenile Justice (BHJJ) Initiative

**11 youth have been enrolled since 2013**

82% are male, 82% are white, & the average age is 15.3 years

At intake, common diagnoses include ADHD and Oppositional Defiant Disorder

**100% of youth successfully completed treatment**

Average length of stay in the program was 5 months

**BHJJ families report high satisfaction with services they received**

**Treatment led to significant improvements in functioning & problem severity**

**None of the youth were sent to an ODYS institution following services**

**Alcohol and marijuana use decreased during treatment**

**Across Ohio, BHJJ costs about \$5,000 per youth compared to \$200,000 to commit a youth to ODYS**

**Academic performance improved during treatment**

At termination, none of the youth received failing grades in school
